

Ladies and Gentlemen:

Please do not weaken Indiana's do-not-call registry. As an Indiana resident, I registered my number so I would not be bothered by unwanted telemarketing calls. I enjoy the peace that has resulted. If I am interested in a service that a business offers, I am quite capable of, and will contact them to obtain that service. I do not need to be contacted with offers of that service.

Please do not weaken this effective law. Allow Indiana residents to register their preference not to be disturbed by telemarketing calls.

Thank you.
